## OBJECTIVE

---

To associate myself with an organization to get growth-oriented position where my skills will get developed and utilized for success of organization.

## EDUCATION

---

**Bachelor of Technology** - DR. Babasaheb Ambedkar Technological University 2018- 2021

B. Tech in Computer Science with 8.17 CGPA throughout the course.

**Relevant coursework:** Object-Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Information Retrieval, Image Processing, Artificial Intelligence, etc.

## SKILLS

---

**Technical Skills** Javascript, C#, Angular, Tailwind CSS, HTML, CSS, .NET Framework, JQuery.

**Framework Tools** Angular, .NET Core, Git, GitHub, Bamboo, Atlassian JIRA/BitBucket.

**Soft/Other Skills** Data Structures (basic), Time Management, Team works etc.

**Tools** Visual Studio, Visual Studio code, SSMS, Azure Studio.

## WORK EXPERIENCE

---

**Software Developer Engineer**

Jan 2022 - Present

Kantar Analytics

*Bangalore, India*

- Executed detailed code reviews and orchestrated production/non-production deployments, reducing post-deployment issues by 25% and shortening release cycles by 15%.
- Led front- and back-end development, resulting in a 10-15% improvement in dashboard performance.

**Software Developer (Intern)**

Mar 2021 - Nov 2021

Technogeeks IT solutions Pvt.Ltd

*Pune, India*

- Creating Database Schemas and Representing It.
- Supporting business processes.

## PROJECTS

---

**Client: US Investment Banking firm.**

Duration: 3 years of experience working with Angular and .NET

- Revamped the data visualization and reporting tool, leading to a 30% reduction in data retrieval time and a 50% boost in user satisfaction among investment analysts.
- Over the span of 3 years, collaborated with cross-functional teams to analyze system dependencies, build new features, and resolve critical issues in production environments using .NET technologies.
- Responsibilities included data handling, creating intuitive charts and tables, and developing custom report generators and dashboards.
- Implemented optimizations to ensure application performance met expectations.
- Utilized C# and ASP.NET MVC to design, develop, and maintain web-based applications, enhancing overall reliability and performance.
- Utilized Angular for creating responsive, dynamic user interfaces, contributing to improved user experience over the course of the project.

- Debugged and resolved critical production issues on-time.
- Responsible for code review and production/non-production deployments.

## PROJECTS

---

### Client: US Investment Banking firm

Duration: 3 years of experience working with Angular and .NET

- Developed custom analytic software for global clients to analyze sales performance and KPIs.
- Utilized .NET Core for backend logic, integrating real-time data with Angular frontend to provide accurate, on-demand data visualizations.
- Over 3 years, worked extensively on optimizing performance, debugging, and resolving critical issues in production, ensuring high system availability and smooth deployments.
- Analyzed and understood client requirements and system dependencies for new features and existing systems.
- Coordinated deployments and system maintenance, consistently meeting client expectations and reducing deployment-related issues by 20
- Debugged and resolved critical production issues promptly.
- Conducted code reviews and managed production/non-production deployments.
- Met project expectations and ensured successful project closure.

## CERTIFICATIONS

---

- Full Stack Web Developer Certification: [LinkedIn Learning](#)
- Coursera AWS Fundamentals Certification: [Coursera](#)
- Paper Publication: [Mukt Shabd Journal](#)

## EXTRA-CURRICULAR ACTIVITIES

---

- Actively participate in bike riding, lead group and manage everything.
- Loves to do rafting and trekking.
